SUMMARY

Computer Science (Artificial Intelligence) student at Sukkur IBA University with strong foundations in Python, C++, Java, databases, and web development. Passionate about Artificial Intelligence, Machine Learning, and software engineering. Seeking internship opportunities to apply technical skills while contributing to real-world software and AI projects.

EDUCATION

BS Computer Science (Artificial Intelligence)

Sukkur IBA University

08/2025

Sukkur, Pakistan

Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Programming Fundamentals.

SKILLS

Python

- Object-Oriented Programming (OOP)
- File Handling
- Exception Handling
- Data Structures
- API Integration
- Basic Automation Scripts

Java

- Core Java
- Java Swing
- JDBC
- GUI Development
- OOP Concepts

MySQL

- Database Design
- CRUD Operations
- SQL Queries
- Joins
- Normalization

Teamwork

- Collaboration
- Communication
- Adaptability
- Time Management

CERTIFICATES

**People's Information
Technology Program (PITP) –
Python Programming**
Issued by Sukkur IBA University

**Cambridge International
Qualification, UK – Basics of
Python**
Issued by UniAthena

Foundations of Cybersecurity
Google (via Coursera)

PROJECTS

Personal Portfolio Website

06/2026 – 07/2026

Responsive Portfolio Website | HTML, CSS

- Designed and developed a fully responsive personal portfolio website using HTML and CSS.
- Showcases technical skills, academic projects, certifications, and contact information.
- Optimized for desktop and mobile devices with a clean and modern user interface.
- Deployed online for public access.

Technologies:

HTML5 • CSS3 • Responsive Design • Git • GitHub

E-Voting System

11/2025 – 07/2026

Full-Stack Web Application | Django, PostgreSQL

- Developed a secure electronic voting system for the Shikarpur Shagird Forum (SSF) using Django.
- Implemented user authentication, voter registration, candidate management, and secure vote casting.
- Designed an administrative dashboard to manage elections, candidates, and voting records.
- Integrated PostgreSQL for reliable data storage and efficient database management.
- Built a responsive user interface with modern web technologies.
- Managed the project using Git and GitHub with version control and collaborative development practices.

Technologies:

Python • Django • PostgreSQL • HTML • CSS • JavaScript • Git • GitHub

Job Portal Management System

02/2026 – 05/2026

Java Swing Desktop Application

- Built a desktop-based job portal using Java Swing and JDBC.
- Connected the application with a MySQL database for efficient data management.
- Implemented CRUD operations for employers, applicants, and job postings.
- Designed an intuitive graphical user interface to improve usability.

Technologies:

Java • Java Swing • JDBC • MySQL
